Due to the nature of our service the Service develops individual Service Care Plans each time a Service User requires transport. The service care plan will identify:

- Provision of a regular service, or
- Provision of a temporary service with duration specified, or
- Refusal of service, or
- Referral to another agency

What happens when the Service is unable to meet your need?

If you are on a waiting list and your situation changes please contact the office for further consideration.

What information will be passed on to the government?

In order to support our communities, the government (both federal and state) provides funding to many community services. In order to make these services work well, the government needs to know how services support people in their homes and communities. The information reported to them is used for statistical purposes only and will not be used to affect your entitlements or your access to services. The CHSP Minimum Data Set (MDS) records information about those people who receive CHSP-funded assistance from your Service, their circumstances, details of people who may be looking after them, and the types and level of assistance provided to them. This means a record of client and carer details, their circumstances and the assistance received from your Service must be kept and reported for the CHSP MDS. All information transmitted about service users is non-identifying.

Remember that we can only pass on information about you if you give us your permission. The information the government needs to know includes:

- If you are male or female;
- Your postcode, suburb or town, and the State you live in;
- Your age and birth date;
- Whether you are a person of Aboriginal and/or Torres Strait Islander descent;
- If you have an unpaid person who regularly helps you (Carer);
- Whether you own your own home, rent or board;
- Whether you receive a pension;
- What support and how much support you receive from other services;
- What language is spoken at home; and
- Country of birth.

Even though STGCT will ask for your name and address, your name and address will NOT be passed on to other government agencies. The information you give CANNOT be matched or compared to your Medicare records or Centrelink, or any other individual records about you.

At the time of assessment you will be asked if you are willing to sign a consent form this form includes consent for your data to be sent to the Funding Body. This transmission meets all privacy requirements.

All non-perishable items will be donated to a charity after three months. All perishable items may be disposed of after one day.

The Service will not accept any responsibility for items left in the vehicles.

Service Parameters

Often our lives cannot be planned and appointments etc may come up with very little notice. While the Service asks that Service Users provide as much notice as possible, the Service will try to provide service with short notice. Unfortunately due to the demand on the Service this may not always be possible or may require some flexibility on the Service Users part (e.g. assisting us by seeing if appointment time can be changed etc)
