PROCEDURE

STGCT's Board must promote best practice, continuous improvement and a service delivery culture that promotes and supports consumer safety. This will be assessed in yearly Performance Reviews of all staff.

Employees, Agency Staff, Contractors and Volunteers involved in activities or programs with children, aged and/or vulnerable people must be carefully selected and screened. Prior to commencing employment or volunteer services, the following precautions will be taken:

- All employees and/or volunteers must complete an application form which requests details of relevant experience, positions held, details of two referees and permission to contact them.
- Both referees will be checked.
- The questions of the referees will seek to establish the applicant's suitability for the role or position and the conversation will be documented and retained on file.
- All short-listed candidates must undertake a formal interview which includes an analysis of past experience working with children, the elderly or vulnerable people.
- A Police and/or Community Services check which complies with legislative requirements will be requested and received prior to the Employee or Volunteer

commencing their proposed role. The check must show that the individual is not precluded from working in childcare or aged care.

- Hold a cleared / valid working with children check.
- Where STGCT has identified that an applicant has previously committed a violent or sexually related offence, they cannot, under any circumstances, be considered for employment or engagement with STGCT.

Training

All new Workers/Employees, including Agency Staff, Contractors and Volunteers will be issued with a copy of this policy and receive formal training in;

- The content and application of the Organisation's Consumer Protection Policy,
- Reporting procedures and the associated legal requirements.

Refresher training courses based on current "best practice" and changes to legislation will be provided on a regular basis.

Prevention

STGCT staff will introduce themselves to all consumers and will acquaint themselves with the consumers Risk Assessment, Medical Emergency Information, Consent to Store and Share Information and Client Registration Form/ Service Care Plan. All STGCT will wear the organisation uniform during the delivery of support services and should have their name badge clearly visible to the consumer.

STGCT will also provide a safe physical environment for the delivery of services.

The Finance, Audit and Risk Board Sub-Committee will review the incidents on a bi-monthly basis and will report to the Board on this item. STGCT will maintain a Continuous Improvement Register which will be reviewed during the Risk Management Review for each key criteria: Fleet, Claims and Damages, IT Security, Funding, Safety and Insurance, Training and People, Governance and Compliance.

All Conflicts of Interest are to be reported to the Chief Executive Officer and registered in the Conflict of Interest Register.

A Safe Environment

Incidents of Abuse are unlikely to take place in front of another person and the presence of a witness can assist in clarifying questionable allegations.

When transporting people under their care, Workers will take them directly to and from arranged venues and will not spontaneously detour or make additional arrangements.

Workers will respect a consumer's feelings and privacy when engaging in physical contact of any kind.

Adults and Children are expected to respect each other's privacy during times that require undressing, dressing or changing clothes. Workers will set an example by protecting their own privacy in similar situations. No Worker will be alone in a room with a Child or an Elderly or Vulnerable person while any/either is changing unless the consumer is unable to change clothes without assistance..

Initiations and secret ceremonies are prohibited. All aspects of every program related to children, aged and vulnerable people will be open to observation by family, friends or guardians.

Workers have the right to ask people to leave their home. Police may be contacted if such persons refuse to comply with any reasonable request to leave.

Reporting Procedures

STGCT actively encourages the reporting of all abuse including Sexual Abuse.

STGCT is committed to building an environment where either a victim or employee/volunteer feels able to report such abuse.

Employees and/or volunteers must report reasonable suspicions of abuse to the management of STGCT.

Reasonable Suspicion means fair and practical reason to believe an incident involving abuse has occurred based on verbal communication, hearsay, rumour or observation of behaviour.

The details of those reporting abuse will be kept private and confidential.

A documented reporting process with escalating procedures has been established by STGCT for handling allegations of abuse.

The escalating procedures will be as follows:

- The automatic suspension from all work or other duties within STGCT of any person while under investigation by STGCT, or by the police, for committing abuse;
- The automatic termination of their employment, or involvement with STGCT if found guilty of committing abuse, either by internal investigation or by a court.

If there is reasonable suspicion that a consumer has been or is suffering abuse, the Police and the Organisation's Insurer will be contacted immediately.

The Police will also be notified if a consumer discloses an incident of Abuse that has occurred somewhere other than STGCT premises, (e.g. an outing).

If a disclosure of abuse is made, the person who receives the disclosure will maintain appropriate pastoral care to the one making the disclosure.

This will include:

- Treating each allegation seriously and not attempting to deny the allegation or minimise its impact on the alleged victim. The matter should not be swept under the carpet.
- Not pushing the consumer to disclose details of the alleged assault or attempting to investigate the allegation.
- Assuring the consumer that they are understood: that their disclosure is being taken seriously; that what has happened is not their fault, and that they are correct in disclosing the incident.
- Reporting the abuse to the police and STGCT insurer.
- Not making contact with the alleged perpetrator. If the Worker or Volunteer is already providing counsel to the alleged perpetrator, it may be advisable for another person to assume this responsibility for the duration of any investigation.

- If the alleged assault has taken place recently, clothing worn by the victim consumer should be, if reasonably practical, retained and handed to the police for forensic examination.

The Chief Executive Officer will ensure the interests of the victim take precedence over those of the victim's family or of other members of the community and will:

- Assess the consumer's need for immediate medical attention and if required, ensure that it is provided;
- Arrange emergency respite care, admission to hospital or referral to the police if the alleged abuser needs to be separated to ensure the consumer's safety while respecting the rights of the abuser;
- Where necessary contact family members, the consumer's general practitioner and other community services involved;
- Report all suspected or confirmed cases of abuse to the Governance Body; and
- Once investigated, the Chief Executive Officer will determine if there is a legal requirement to report the incident and will ensure the matter is notified to the appropriate authority/s.

The Service acknowledges that each case of abuse is unique and that the determined interventions should take into account the nature and context of the abusive relationship and whether consent for intervention is given, other than in a situation where the law requires the matter to be reported.

Maintaining confidentiality.

Any disclosures or reports of suspected abuse and all details of the subsequent investigation will be documented promptly and the documents will be held in a secure location where a breach of privacy cannot occur.

REVIEW AND EVALUATION

The policy will be regularly reviewed as part of STGCT's quality assurance processes. It will be evaluated against the organisation mission, values and results framework, relevant state and/or federal standards and in consideration of consumer feedback and consultation.

STGCT's *Continuous Improvement Register* will be used to record identified improvements and monitor the progress of their implementation. Where relevant, this information will be fed into STGCT's service planning and delivery processes.

Refer to the Accident/Injury/Incident Procedure for more information regarding the actions following identification of violence, abuse, neglect, exploitation and/or discrimination.
