**Participant
Service Charter**

1 Our Participant Service Charter

We know the National Disability Insurance Scheme (NDIS) is making a difference to participants' lives.

We are focused on improving how we serve NDIS participants, in line with our **Purpose**:

Support individuals with a significant and permanent disability (participants) to be more independent, and engage more socially and economically, while delivering a financially sustainable NDIS that builds genuinely connected and engaged communities and stakeholders.

Our **Participant Service Charter** sets out what you can expect from us at the National Disability Insurance Agency (NDIA) and our Partners in the Community organisations.

It provides overall principles for our interactions with you, and clear service standards and timeframes. These are included in the proposed **Participant Service Guarantee**.

The Participant Service Charter is also underpinned by the specific tangible actions listed in the **Participant Service Improvement Plan 2020-21**.

The Participant Service Guarantee and Participant Service Improvement Plan provide us with a clear direction to improve your experience with the NDIS.

Improving your experience with us is part of how the NDIS can deliver on its wider promise. That promise is to support you to achieve your goals, so you can get on and do the things you want to do.

We want you to have greater independence, and be part of more inclusive communities. And for this to happen, we need to improve what we do and how we do it with you.

We want to support you to make your own decisions to the greatest extent possible.

Half of NDIS participants are less than 18 years old, and we want to support and promote your voice in your plans and supports where possible, so you can take control of your NDIS. This includes children in out of home care too.

We also want to adopt family-centred practices respecting that families and carers also give voice to their children's needs and support their development.

The Participant Service Charter is current as at 30 June 2020. It will be updated to ensure it remains a live document. Updates will be available on the NDIS website.

2 How we will work with you

The Participant Service Charter is based on five principles for our engagement with you:

How you will know if we are delivering against the Participant Service Charter

- 1** We will do things with you and for you **on time** – as set by the **Participant Service Guarantee** time standards. This will be checked by the Commonwealth Ombudsman.
- 2** You will experience a service that is **transparent, responsive, respectful, empowering and connected**, as measured in the quarterly Participant Satisfaction survey. We will aim to reach 90 per cent for all stages of your engagement with us. This will be overseen by the Independent Advisory Council.
- 3** It will be easier for you to **meet your goals** around which your support plan was built. The goals should reflect your hopes and dreams; for example that the NDIS has helped me to live independently.
- 4** You will see continued improvements in measures of **family, social, community, and economic** outcomes from the NDIS.
- 5** You will be supported by a **financially sustainable** NDIS that you can rely on into the future.
- 6** The **general community** will also value the NDIS, as measured by sentiment survey scores improving over time. This will also be overseen by the Independent Advisory Council.
- 7** We also know that **you will hold us to account** by providing your feedback, compliments, complaints and suggestions. We will use this feedback to improve the NDIS.
